**INFORMATION DISCLOSURE STATEMENT
PURSUANT TO 37 C.F.R. §§ 1.97 AND 1.98**

Dear Sir:

Applicants submit herewith Form PTO-1449, "Information Disclosure Statement."

Since this Statement is being filed before the mailing date of a first Office Action, no fee is necessary. As all of the cited documents are U.S. Patents or published U.S. Patent Applications, no copies are being provided with this filing.

Applicants are submitting this art pursuant to their duty of disclosure under 37 C.F.R. §1.56. However, submission of this art and statement is not an admission that any item identified contains matter anticipating the invention or rendering the invention obvious to a person of ordinary skill in the art. Further, Applicants believe none of the art submitted herewith, alone or in proper combination, discloses, teaches or suggests the invention claimed by Applicants.

The citation of a reference herein is neither an admission that the reference is sufficient to teach one of ordinary skill in the art how to make or use the subject matter thereof nor an admission that reference is material to the patentability as defined in 37 C.F.R. §1.56(b).

Moreover, submission of these patents is not an admission that any of the patents constitutes statutory prior art or has an effective date prior to Applicants' effective date of invention.

Applicants specifically reserve all rights of privilege and confidence with respect to this matter. A submission of this document is not to be construed as a waiver of those rights. In addition, the filing of this Statement is not to be construed as a representation that a search has been made by Applicants or counsel.

CERTIFICATION PURSUANT TO 37 C.F.R. §1.97(e)

The undersigned attorney states that no item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application, or to the knowledge of the undersigned attorney after making personal inquiry, was known to any individual designated in 37 C.F.R. §1.56(c), namely, (1) each inventor named in this Application, (2) each attorney or agent who prepared, prosecuted or prosecutes this Application, and (3) every other person who is substantively involved in the preparation or prosecution of this Application and who is associated with an inventor hereof, with the assignee or with anyone to whom there is an obligation to assign this Application, more than three months prior to the filing of this Statement.

Respectfully submitted,
